My dearest Cis

I cannot let the mail leave without a little letter for my cherub.

Well dearest how have you been enjoying yourself? I hope you have not been having the same weather as we have here – the heat has been something terrible about 20 degrees above melting point - today however the weather is perfect. Just like Spring weather.

I do so wish I could see my Love just once more before leaving for the desert - but I must be content and wait till my return which I trust will not be long.

Cis I do love your diary I think it beautiful. I think I value you even more than the photo because I think I am reading your heart. I have read the last month over and over again it is lovely and wonderful to think that we were thinking so much of each other unknown to the other. What do you think Darling – I only wish I had chronicled the events and thoughts of my life for the last two years so that I could hand them over to you. You would then understand how I do appreciate yours of the last month or two you also give me an insight into your feelings towards others and when I see in whom you put your trust

I cannot help saying half aloud, what a dear creature.

As I must catch this mail this one must be short and sweet darling but I have decided to write you every day until I leave then oh then I dread to think of waiting so long for a letter. So with love to you and all yours from

Your Ever Loving

Ray

P.S. I am anxiously waiting for tomorrow to get your letter.

Later

My Darling

I have just opened this to tell you that I have received your beautiful letter before I expected it you are a dear sweet creature to write before you received mine. I have not time to read it before posting this but will answer fully tomorrow

Au revoir my love
